

# ICN-120

# IN K C U P S

# ICN-120

The ICN-120 pad printer is a one-color sealed cup pad printer ideal for printing on items that require an extended forward stroke. This machine is great for both apparel and hard goods such as the left chest of hoodies or hard hats that are otherwise hard to print with a standard pad printing machine. Reach up to 8" (203mm) to the print area. The ICN-120 provides flexibility in both the extended forward stroke and print diameter.

The ICN-120 handles ink cups up to 4.7" (120mm) which enables it to print images up to 4.3" (110mm) in diameter. An optional pad cleaning device is also available for this machine. The pad cleaning device allows operators to clean the pad after an allotted number of prints, cleaning the pad of debris and other fibers that may be in the environment.

## FEATURES

### ONE-COLOR PAD PRINTER

**AVERAGE PRODUCTION SPEED:  
1100 - 1300 IPH**

**MAXIMUM ARTWORK SIZE: 4.3"  
(110MM)**

**PLATE SIZE: 130MM X 280MM**
