

INKCUPS PAD PRINTER LINE

ICN B100
1-Color Tabletop

ICN B150
1-Color, 150mm cup

Inkcups offers a line of heavy-duty semiautomatic pad printing machines, from 1-color tabletop to 6-color models. The machines can be equipped with various tooling and fixtures including custom-made ones. All printers come with the VersaCup ink cup - the patented universal ink cup, ranging from 60mm to 150mm in size to meet various production needs.

All Inkcups pad printers feature an adjustable stroke, programmable delay, and tool-less changeovers. All printers have ample compression capability to handle large printing pads and deliver crisp, high quality images. The easy to use pad printers perfectly suit both start-up and experienced decorators. Inkcups equipment comes with attentive no-charge technical support in English and Spanish.
